endofaster

real time gastric juice analysis

NEW GASTROSCOPY APPROACH

PRE-NEOPLASTIC RISK FACTORS ALERT

- Gastric pH evaluation within 15 seconds
- Targeted biopsies on high-risk patients
- Discriminate other pathological conditions

HELICOBACTER PYLORI DIAGNOSIS

- Urease quantitative results in 90 seconds
- Regardless of sampling site
- Not affected by PPI therapy

ACCURACY
BETTER DIAGNOSIS

real time
more life

PPI EFFICACY CONTROL

- In 15 seconds
- Therapy optimization

LESS WAITING
EFFICIENCY
COST SAVING

FOCUS ON CRITICAL CASES

Appropriate histological mapping on patients at risk

MORE INTUITIONS

More information to enrich deductions and the diagnostic process

INSTANT REPORTS

Immediate results to discuss with patient on his/her clinical pathway
